

All-Natural Nasal Spray

Sinol-M is a new all-natural nasal spray indicated for the fast relief of Allergies, Sinus Congestion and Headache.

Sinol-M is the only all-natural remedy for allergic rhinitis with proven clinical efficacy and tolerability.

A randomized, double-blind cross-over study in patients with persistent allergic rhinitis demonstrated a significant reduction in nasal symptoms such as runny nose, congestion, itchy nose and sneezing versus no treatment.¹

Based on well-characterized homeopathic ingredients including capsaicin and aloe, Sinol-M does not contain corticosteroids and is not associated with rebound or any harsh side effects. Non drowsy and non-addictive, the product can be used as needed up to 12 times per day.

Currently available in two formulations: Allergy & Sinus and Headache, Sinol-M is packaged as a 15ml / 100-dose nasal spray.

Additional formulations including Sinol-M Cold Relief, Children's Allergy/Sinus and Children's and Children's Cold will be introduced during 2011.

Sinol-M is a homeopathic drug, registered by the FDA and produced in the USA in an FDA approved facility.

Important Information:

Sinol-M contains capsaicin, derived from the hot pepper plant. Upon initial use, some patients may experience a mild burning sensation, lasting 2-5 seconds. This is transient, usually diminishes with subsequent application.

If pregnant or breast feeding, ask a health professional before use.

Do not spray in or around the eye area. If contact occurs, rinse copiously with water

Not recommended for children <12
